GOVERNOR DUMMER ACADEMY

South Byfield, Massachusetts 01980

FOUNDED IN 1763

To the Class of '66:

As your graduation day rapidly approached, I experienced a variety of emotions. On the one hand, I was proud of your accomplishments and looked forward with you to your future opportunities. On the other hand, I was sorry to see your years at Governor Dummer come to a close, for I have thoroughly enjoyed my association with all of you, particularly during this senior year.

Probably no senior class will ever *fully* live up to the standards it sets for itself, nor will any class *totally* fulfil my hopes for our concept of senior responsibility. However, I believe you have taken another step forward in proving that seniors can effectively shoulder many responsibilities and can serve as a major force in setting the standard and tone of the school. You have carried out your individual assignments faithfully and well; for the most part you have supported one another; and many of you have set a vital example for the rest of the student body. For these accomplishments I extend my congratulations, along with my thanks for your invaluable assistance.

During your years at the Academy, I hope you have acquired not only the academic training you need but, even more, a recognition of the importance of your own intellectual development and a genuine interest in at least some areas of academic pursuit. Finally, I hope you have established a high standard of personal values which will guide you through trying times ahead.

As you leave Governor Dummer, I can wish nothing better for you than a life of strong challenges, a reasonable number of successes in meeting those challenges, and a growing sense of individual worth and accomplishment.

William W. Allen

ONE PHASE IN A LONG JOURNEY OF EXPERIENCES AT

THE 1966 MILESTONE

YEARBOOK OF

*GOVERNOR DUMMER ACADEMY
SOUTH BYFIELD, MASSACHUSETTS*

"THE OLD GUARD" — *FRONT ROW*: Mr. Edgar Dunning, Mr. Edward Eames, and Mr. Thomas Mercer. *SECOND ROW*: Mr. Howard Navins, Mr. Macdonald Murphy, Mr. Arthur Sager, and Mr. Benjamin Stone.

A dedicated faculty is a prerequisite for progress in an educational institution. Men who will give of themselves, not only in class and on the athletic fields, but in every-day life, men who will be a friend as well as an instructor, men who are constantly working toward an improvement for the community; these men are the essence of education. Such men have become the foundation of the excellent Academy faculty. For approximately thirty years Mr. Edgar Dunning, Mr. Edward Eames, Mr. Thomas Mercer, Mr. Macdonald Murphy, Mr. Howard Navins, Mr. Arthur Sager, and Mr. Benjamin Stone have spent their lives as teachers, administrators, and department heads to establish the school's fine reputation.

For their devoted service and true friendship, we, the students, respectfully dedicate the 1966 MILESTONE to the "Old Guard" of Governor Dummer Academy.

ACKNOWLEDGEMENTS

The production of a yearbook is the result of long hours of hard work by many people. The board of THE 1966 MILESTONE is not solely responsible for the publication but is indebted to many people:

Mr. Roy Hult of Hult Studios in Melrose whose excellent photography has improved the quality of the book.

Miss Louise Lovell, Miss Sylvia B. Lunt, and the entire office staff for their special information.

Mr. Douglas L. Miller who has faithfully stood by us to help whenever he could.

Mrs. Marjorie J. Rouisse for her accounting and bookkeeping.

Mr. Richard Weir, the representative from the American Yearbook Company, who aided us in the actual production.

The MILESTONE staff for their assistance in the tedious areas of yearbook production.

Our advertisers without whom the book would have been an impossibility.

STUDENTS

*"Experience teaches slowly, and at the
cost of mistakes."*

In all it was a memorable year for the Freshman class . . . in order to exercise their vocal chords, Decay and the Cavities gave nightly serenades to Mr. McDuffie and all other unwilling listeners of Perkins . . . that famous ventriloquist act of Lang & Strang from Moody 2 . . . or that renowned quotation developed by Dick Mackowsky, "What, *me* a Govie? 'cause I *might* be a Govie!" . . . and the response of P.T. Wheeler, "Then again, you might be!" . . . especially well-known for his promptness, Hal Terry, due to setting his clock back, often makes breakfast as early as 8:20 A.M. . . . being a class of extremely modest boys, we are rather inclined to dress in dark, quiet Levis . . . scholastically we have held our own, beginning the year not as well as we aught, but ending up rather well . . . we also lay claim to various varsity sportsmen: F. Lyle, hockey and tennis; F. Lang, basketball; and S. Sacks, M. Smith, and C. Meehan, baseball . . . upon his decision to ski over Winter Week-end, optimistic P.T. Wheeler claimed, "I've never been hurt on skis in my life." It seems only yesterday that he had the cast removed . . . upon returning to his apartment one evening Mr. Dann found a beautiful female waiting for him there (it was, unfortunately, a dummy created by the Masonites.) . . . it didn't take long for us to get in the long hair style, much to the dismay of Mr. Wilkie . . . Ambrosians still complaining about the daily morning trek to the Dining Hall . . . its been a job preventing cynicism from invading on the class . . . stop saying I've got three glorious years ahead of me . . . another chapter in freshman history successfully completed — and we're ready for next year we hope.

FRESHMEN

*"The more we study, we the more discover
our ignorance."*

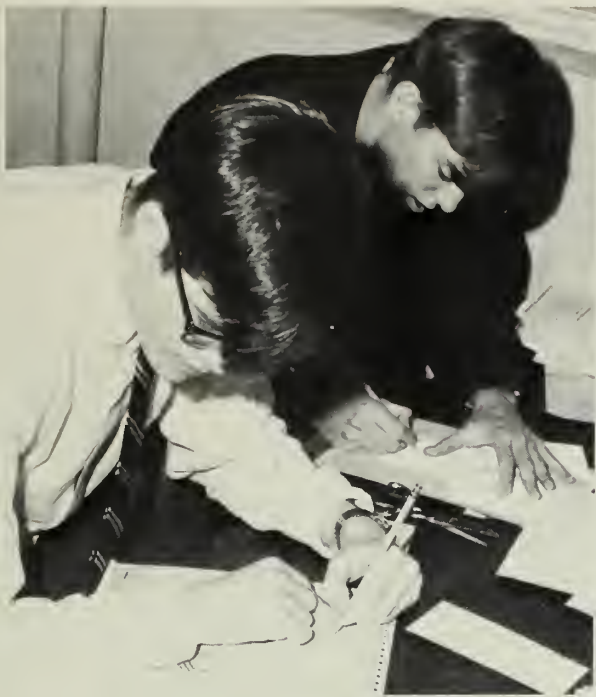

SOPHOMORES

"Behavior is a mirror, in which everyone shows his image."

"Yah theenk so, peeg? . . . Mr. Navins: "No, Jay. 'C.S.' not 'B.S.' " . . . "Goon platoon" in Asian History . . . A super-ball can bounce 92% of its original height; its power was unleashed in the Chapel classroom . . . Jayne Mansfield in Math class . . . On J.V. Basketball trips: "Hey, let's go across the road" . . . "Hatchet Man" Berntsen in soccer practice . . . Wallace defects to football . . . Frosh Football: "Shake it off Bernie, shake it off" . . . "Ink taste good, Marcus?" . . . Trip to *Twelfth Night* — culture?? . . . C.F. in *Juno And The Paycock* . . . Bio students temporarily lose Mr. A. to chicken pox . . . Sophs bombed in the snowball fight with the Seniors on the Free-day . . . "Bob, roll that up and put it away" . . . "Shay, can I have one of your comic books?" . . . Math 2A: "So the graph goes blup, blup, blup, blip, blip, blup by the 'Floppenzy Axiom'" . . . It's a proven fact that 75% of the Sophomores in study hall at Christmas will go to Ivy League Schools . . . "Boots, aah, on the subject of yo-yos" . . . "Any Sophomores in here with draft cards?"

JUNIORS

The class of 1967 has not only just fulfilled the tradition of the junior year, but also has set higher standards and increased responsibility for the classes of the future. The Red Key Society, a newly founded organization composed of juniors, served as a host for the school throughout the year. Juniors Dave Marsh, Keith Adolph, and Stan Greenberg led the school academically. Keith, Bill Alford, and Dan Morgan were captains of varsity sports.

Most of the Junior class was housed in three dorms, Commons I, Pierce, and Ingham. Ingham, being the biggest, was renown for its notorious inhabitants. It was the only dorm on campus to be both a study and a delicatessen. Rossy Magrane maintained a constant vigil over the television in order that he might be the first to know if it got broken. Dave Marsh increased his collection

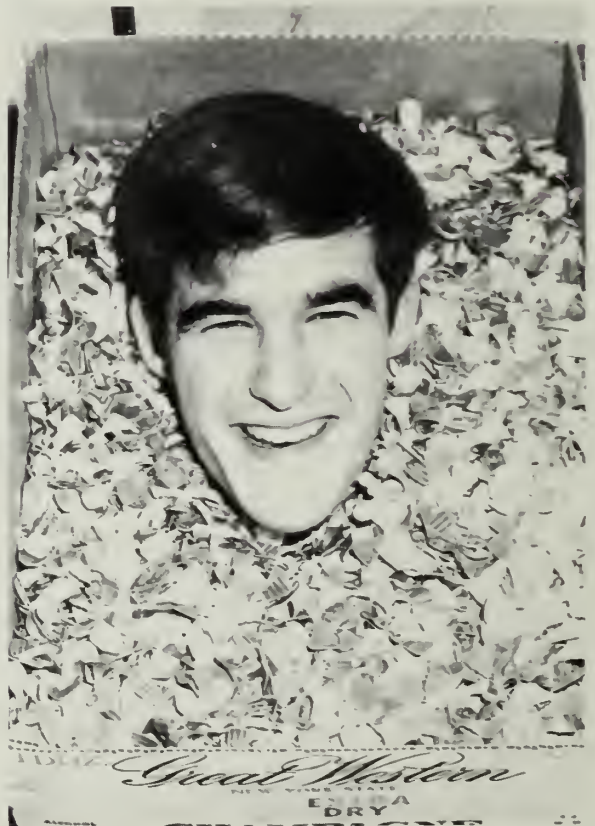

to 242 neckties; Mike Miles acted as the class "entrepreneur;" and Mike Rogers served as the class artist. Honorary dorm parents were Bo Bass and Gene Romero.

Commons and Pierce had smaller junior contingents. Pierce III earned the respect of the entire school when it became the dorm volleyball champion. On Pierce II, the boys collected enough newspapers to fill Roy Meyers' room. Commons' fame was based mainly of the individual notoriety of Peter Fink and Biff Clark's broken leg (nice block Lew) and Kevin Leary's autographed refrigerator.

The future of the class of '67 is a bright one. Superior athletic and academic ability wager well for the overall success of the school.

"If you want learning, you must work for it."

SENIORS

MEMORIAM

J. THOMAS TOTH

For three years Tom contributed greatly to the school, not so much as an outstanding student, but as a hard worker and an eager participator in such activities as the Chapel Choir. His sudden death in 1964 was a great shock and loss to all. His cordial nature made him a pleasing companion. Tom's classmates have donated a choir pew in the Moseley Chapel to his memory.

Co-captains Maier and Schumann opened the 1965 Football Season with "Circle 'em up Red." Coach Anderson trotted out with his clip board and whistle to survey the squad for a potential line. There was some talk of the "Baltimore Ringer." Minutes later he was atop the "big toy": "Diggadig, dig, dig . . . All right next group . . . How sweet it is." The team displayed the potential that Mr. Anderson was looking for against Milton: twenty-two points in five minutes. But about midseason Heald's back and Maier's ankle were constant menaces to the lineup, and both Franco and Dimsy were lost for the season due to injuries. The outstanding senior attitudes prevented a dangerous lapse in moral; Boozer was "up" for every game. The pressure in practice was broken when someone like Healdie had to figure out which was his right hand before making a call, or when Tricks needed time out to retape his practice jersey. Backfield performances were greatly aided by having Kissy on the sidelines. Alfond and Leonard set several school passing-receiving records. Near the end of the season, when it was too dark to see the ball or the other end of the field, sprints were changed to "round 'n' downs" and finally after three months of work came the awards dinner. Maier and Schumann were co-M.V.P.'s and Mr. Anderson announced that Alfond and Rumford were Co-captains elect for 1966.

Governor Dummer produced a new and surprising Varsity Baseball Team in 1966, thanks to some new personnel and a new spirit. For once, the team could boast of a pitching staff, consisting of Ray, "The Waterville Wonder"; Huard, also famed for hitting long balls; Captain Caldwell, remembered for the "Caldwell shift"; and Biff Clark, who had his mind on the surf most of the season. Boozer behind the plate, lead the team with his spirit and timely hitting. The "Camel" played good ball and would have played more if he could have spared some time from his driving training course. At second base, Jimmy Millet caught a lot of grounders between temper tantrums, and "Howie" was the conventional skinny second baseman. While either filling the hole at shortstop or holding down third, Win Burt was second only to "Paper" Sacks for the most rinky-dink hits. The "M and M boys", Mr. Miles and Mr. Urann, definitely made the most efficient managerial crew in the league. A couple of surprising outfielders were Sisko, a long ball hitter to the opposite field, and Holmsie, with his amazing late season hitting streak. The other catcher, John Schaefer, was noted for his broken bat record and his ability to really sting an inside fastball. The team had its veterans, but it also had the largest Freshman contingent ever, consisting of Sacks, Meehan, and Smith. Although coaches Sargent and Martin did a fantastic job from the bench, they also joined in practice to make the only totally Southpaw battery in recent years. Next year's team will have ten returning regular players, plus Mr. Sargent's flailing fungo to produce another fine season.

GRADUATION

“The end of the beginning.”

The Morse Flag was first awarded at the 150th Commencement of this school on June 9, 1913, and it has been awarded each year since that time to the senior whose record in all respects has met with the highest approval of the faculty. According to the trust established by the late Reverend Glenn Tilly Morse, long-time friend and trustee of the Academy, a new flag is provided each year in order that the old flag which has flown during the past year may be given to a member of the graduating class.

This year the Morse Flag is awarded to *Barry Sullivan* of Newburyport.

For many years, the Academy Prize was maintained

by the mother of Headmaster Emeritus Edward W. Eames. In June 1959, the underclassmen of the Academy endowed this prize so that henceforth at each Commencement it could be given "in honor of Edward W. and Eleanor K. Eames so that the qualities they so deeply prized might be prized in turn by future and succeeding classes." It is awarded to that senior who by his unselfishness and sportsmanship has best exemplified the spirit of the school.

A genuine concern for others, sportsmanship at its best, strong loyalty to his peers and to the school, — these qualities are happily met in the recipient of the Academy Prize, *John Logan Trickey* of Carlisle, Pennsylvania.

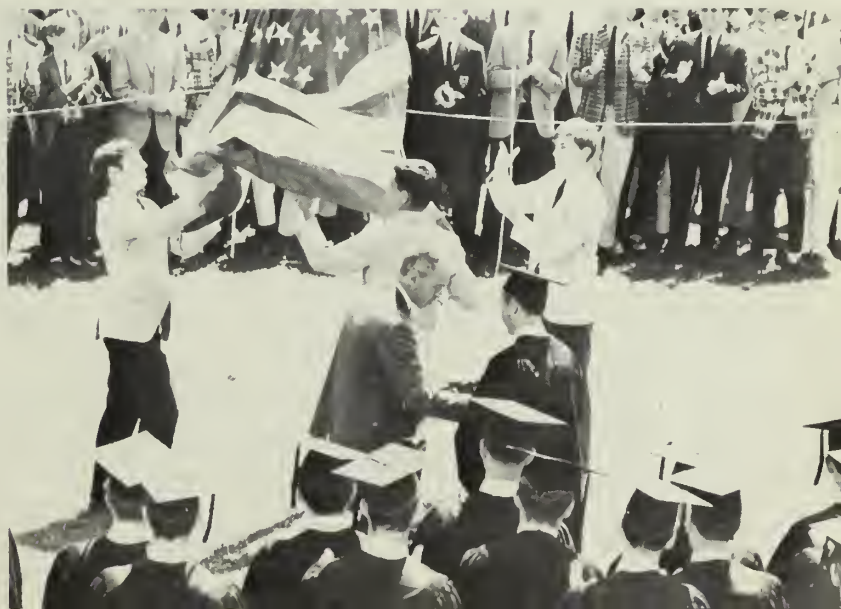

The Bausch and Lomb award goes to that senior who, in the estimation of the faculty, has been most outstanding in the study of science. During this senior year, the winner of the medal has achieved honor standing in both physics and chemistry, no mean task for any student, but particularly difficult for one who has come to us over thousands of miles to study in a foreign land, among new faces with different ideas and even different language. He has been a source of strength to the Science Department, but also he has contributed a great deal to the school as a whole. It is my pleasure to award the Bausch and Lomb Medal to *Ahmad Essa Besareh* of Kuwait.

Even if one were to go strictly by the record, there would be no question about the winner of this prize. One must go back many years in the record book to find an athlete who won eight varsity letters, two Most Valuable Player awards, and served as captain or co-captain of three teams. However, these statistics do not reveal the degree of his quiet leadership, his sense of sportsmanship, or his clutch performances. Never a strongly confident athlete, he nonetheless gave confidence to others. Not the fiery leader, he still led his teams to three league championships. But above all, he always gave full measure of himself . . . *Edgar Morsman Caldwell* of Anchorage, Kentucky.

The Goodwin Athletic Prize, established by Mr. Fred H. Goodwin of the Class of 1916, and a trustee of the Academy from 1916 to 1949, is given to the senior who, by athletic achievement and sportsmanship, has brought the greatest honor to his school during the past year.

The first Special Prize goes to a senior whose accomplishments have been many and of a high order. Honor student, President of the Glee Club, a member of the *Milestone* Editorial Board, co-captain of varsity wrestling and one of that team's near invincibles, he has made maximum use of his time and talent. It is a fitting climax to a splendid career here that he has also been awarded an International Schoolboy Fellowship for a year of study in England . . . *Roy Elder Adams Hope* of Bloomington, Indiana.

The Cumings Prize was established by the family and friends of the late Fred T. Cumings of Troy, New Hampshire. It is awarded annually to a boy who has shown perseverance, hard work, and good spirit in overcoming obstacles and disappointments.

In his academic work and in his athletics, he has demonstrated the same drive, determination, and courage. He has succeeded where fainter hearts would have failed. When this prize was established, I suspect the Cumings family had in mind just such a young man as *Groverman Ellis Cooke* of Gloucester.

The Ingham Fund Scholarship is awarded to help an industrious and able boy work his way through school. The recipient this year is *Jeffrey Robert Harris* of Wayland.

The Gaffney Prize, established in memory of Robert A. Gaffney of the Class of 1940, is awarded to that senior who, in the opinion of his teachers, has been most considerate of the rights, opinions, and sensibilities of others. And so it is with particular pleasure that I award the Gaffney Prize to *Peter Lewis Navins* of South Byfield.

The Richard Hawes Francis Scholarship is awarded to *James Christie Nevius* of Red Bank, New Jersey, who has made substantial intellectual progress and who has demonstrated a spirit of cooperation and helpfulness during his school life.

A vital factor in the success of any school year is the presence of a basketball manager who can keep Coach Williams reasonably calm and happy. Such a manager we have had this year, but he has also been the highly efficient manager of football, the talented varsity catcher, and a strong student. However, he is being honored tonight more for his splendid spirit, his sense of humor, and his resiliency in the face of obstacles. It can well be said that Governor Dummer has been a better and happier place for the presence of *Samuel Gilbert Billings* of West Hartford, Connecticut.

The James M. Barriskill Prize, established in 1960 by the students in memory of Mr. Barriskill of the faculty, is awarded annually to that member of the senior class who has made an outstanding contribution in the field of music at the Academy.

In the 1960's the life of a school boy reflects the same growth of activities, demands, and pressures which we see in all walks of life. The winner of the Barriskill Prize is remarkable for his ability to juggle many activities at once. An honor student, a member of Cum Laude, a founder of the new literary magazine, a varsity track athlete, he also found time to sing in the Glee Club and, most significantly, to devote time each day for four years to his own tremendous improvement as a pianist. At our recent recital he scored a Governor Dummer first by including a composition of his own in this program. Next year he will be studying in England

on an International Schoolboy Fellowship. I am very pleased to award the Barriskill Prize to *Samuel Jay Winer* of Haverhill.

The Dean Channing Hale Scholarship is awarded to that student who, through his own perseverance, has shown the most improvement in the various aspects of school life and has become an esteemed contributor to the well-being of the community.

This year's recipient is *Lawrence Everette Miller* of New York City.

The Timothy Rogers Whittemore Award is given annually to that member of the sophomore class who by his attitude and perseverance has made the best contribution to the Academy. *Steven Blaney Cox* of Camden, Maine is just such a boy.

The third Special Prize is awarded to a senior who possesses extraordinary determination and ambition but who never lets his own interests obscure his concern for others. Born overseas, he was transplanted to this country in his early youth to learn new ways and a new language. Despite such a handicap, he has achieved a strong academic record; he has made himself into a fine athlete in football and track; and he has carried out his senior responsibilities faithfully and well. A fine example of success through hard work is the story of *Sideris David Baer* of Rowley.

I might characterize him as the quiet one. He has never beaten the drum for himself. He has never said a great deal, but whatever he has said carried weight. In a quick glance at the school, one might overlook him. But let us look at the record. An honor student, Vice-President of the Senior Class, an artist and budding architect, varsity soccer player,

and perhaps the best editor-in-chief of the *Milestone*. Effective in all, he has made a most significant contribution to the school. He would never tell you all this, and that is just why I wanted to tell you about *David Wellington Tinker* of Andover.

No one can sample all the varied interests and activities, but some manage to involve themselves in an amazingly wide range. Such a lad is the winner of the next Special Prize. In addition to his academic efforts, he has found time to serve as the highly efficient manager of varsity soccer and wrestling, to sing in the Glee Club and Choir, to write a series of amusing feature articles for "The Governor", to play the banjo and the guitar very well in accompanying his own folk singing; and, as chairman, to develop the best plans ever for the sadly lamented abortive Spring Prom. He will leave behind him a very large pair of shoes for someone to fill . . . *Richard Layton MacLeod* of New Bedford.

The Moody Kent Prizes are given annually to those students throughout the school who have achieved outstanding records in various academic departments. No more than one may be awarded to the same boy.

The Moody Kent Prize for the highest standing in English is awarded to *Charles Stansford Eisenberg* of Chesnut Hill.

The Prize for the highest standing in French to *Barry Sullivan* of Newburyport.

The Moody Kent Prize for the highest standing in Spanish is awarded to *David Colby Stevens* of South Hamilton.

The Prize for the highest standing in Latin goes to *David Raymond Marsh* of Boxford.

The Moody Kent Prize for the highest standing in German is awarded to *Michael Justin Little* of Newbury.

The Prize for the highest standing in History goes to *Steven Frederick Barghoorn* of Cambridge.

The Moody Kent Prize for the highest standing in Science is awarded to *James Harold Keeler, 3rd* of Rowley.

The Prize for the highest standing in Mathematics goes to *John Garland Wellman, Jr.* of Johnsonville, South Carolina.

There is loneliness in command, there are times of serious self-doubt, there are times when even friends seem to retreat. There are also great rewards in the sense of contribution to the well-being of the group.

I know the President of the Senior Class has experienced many of those slings and arrows. I know he has given of himself unstintingly. I know that he has led the school with strength and concern. I know that he and we can be proud of his performance. I hope he carries away some of the rewards as well.

It is with the greatest of pleasure and pride that I award this prize to *Jeffrey Caldwell Weber* of Syracuse, New York.

Over the years many people have been impressed by the proficiency of our seniors in the required speech class taught so ably by Mr. Sager. Perhaps all our graduates do not become Daniel Websters or Winston Churchills, but they do leave us with considerable experience in speaking and hopefully the confidence so necessary in this world of communication.

The Ambrose Prize Speaking awards go to the three members of the class who have gained the greatest proficiency in the various phases of public speaking. I believe all three proved their right to the awards at the dinner last evening.

John Andrew Leonard, II of Manchester

Richard Layton MacLeod of New Bedford

Barry Sullivan of Newburyport.

The Thorndike Hilton Cup was established by the Class of 1919 in memory of their classmate, Thorndike Hilton. It is awarded each year to the ranking scholar in the senior class. *Steven Frederick Barghoorn* of Cambridge is the scholar who combines intellectual ability and interest with a substantial number of other interests and accomplishments.

CUM LAUDE

FIRST ROW: Charles Eisenberg, Peter Navins, David Estey, Michael Little. *SECOND ROW:* Walter Jaffe, Samuel Winer, David Stevens, James Keeler, Robert Vaughan, Henry Eu, Steven Gripper, and John Wellman. *NOT PICTURED:* Steven Barghoorn, David Richards, and Barry Sullivan.

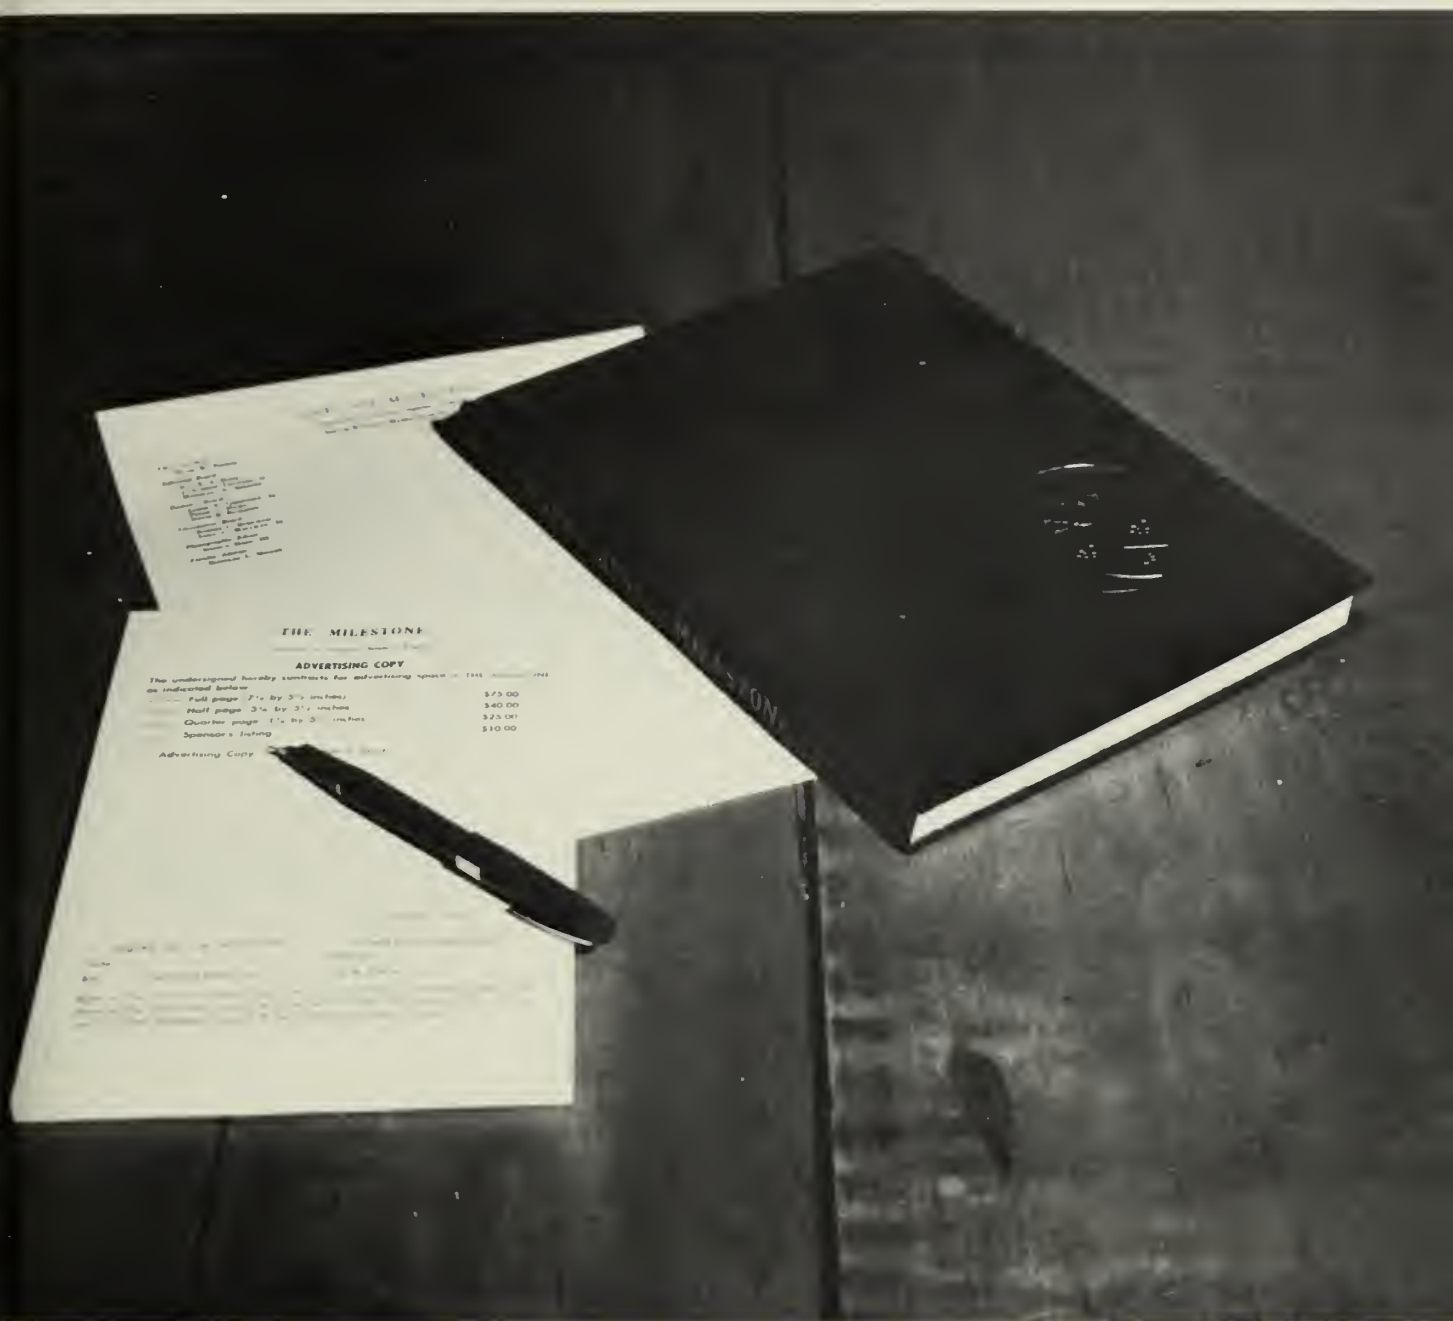

The Governor Dummer Chapter of the *Cum Laude Society* received its charter in 1934. The purpose of the society is to promote scholarship and to recognize scholastic achievement. To be eligible for election to the society a student must maintain a minimum standing of eighty percent during senior year and must stand in the upper fifth of his class. A three-fourths vote of the faculty members is necessary for election; and the members are pledged to consider each candidate's record during earlier years of secondary school work, his diligence, particular abilities and deficiencies, and the nature and number of courses upon which his average is based. Of the Class of 1966 fifteen were elected.

THANKS... for letting us be members of the class of '66

(and '67 and '68 and '69)

It's been a real pleasure . . . and a bit of a challenge . . . to serve you during the year. The pleasure came from the friendly and cooperative way you have accepted our foods. As for the challenge—you have no idea how your eating habits vary as crucial exam periods approach. The apprehension and tension you feel during these periods affect what you eat, how often you eat and how much you eat. The care and feeding of students is one of the most important parts of our food business and we like to feel that we are on your team.

Good luck! We prepare and serve food for many companies where you might go to work. We also operate some of this area's finest eating places. So chances are good we'll serve you again. We sincerely hope so.

Nobody knows how many hundreds of thousands of people will dine tonight with TOWLE Sterling — but the actual number would be startling. For in the two-and-a-half centuries that beautiful silver has been made in Newburyport, the demand for its patterns has moved steadily upward. Craft traditions reaching back almost to the Pilgrims are part of the reason for TOWLE progress, but probably the chief reason is a certain soundness of design — patterns that wear well — that wear so well, in fact, that they become at once a proud possession and a beloved part of family life.

Now, what's in this thing that's called a yearbook?
Let's see . . . 100-pound superfine enamel paper;
cover of poured gold metalay; base color is
Cardinal with #4 pale gold on backbone; Tink-
er's head; Leonard's right finger; the bodies of
Hope and Strater; a little time, sweat, blood,
and industrious ad selling.
